Bagelfish is driven by honesty, curiosity and ultimately...hard work (and cake...)

Formed in 2005 by two friends looking for more out of life. Our approach to delivering our graphic design services is driven by honesty, open-mindedness, curiosity and ultimately down right hard work. At Bagelfish we aim to build lasting relationships and hopefully friendships.

We respect the wishes and ideas of our clients, spending time and sharing ambitions. We're passionate, positive and enthusiastic and always hope that you feel welcome and assured that we will do our best to deliver an inspired solution. We can provide a complete portfolio upon request, tell you what makes us click and how we hope to build a great relationship.

Thanks

annette & Nicola

we are...

- **two designers:** with a combined experience of 24 years in the industry having worked in both public and private sectors.
- **clients:** Edinburgh International Film Festival, The Royal College of Surgeons - Edinburgh, Edinburgh College, Church of Scotland, Lothian and Borders Police, West Lothian Council, Edinburgh's Napier University, NHS to name but a few...
- **work:** advertising campaigns, annual reports, magazines, brochures, direct mail, exhibition graphics, websites, branding, photography, art direction, typography, illustration, packaging, train/bus/taxi liveries, large format printing...and empire building!

yes, we are a small company but we think big...

We offer experience and an undiluted creative core. Our low overheads mean we can deliver a professional service for a price the bigger agencies just can't match. Being a small yet dedicated outfit, we only know how to do things properly.

we genuinely live and breath the work we do...

We are happy to maintain a hands on input after any creative sign off in order to assist a quick and coherent turn round for ad hoc items. It is our firm belief that small, agile, canny creative teams like us can compete with the big agencies and even out think them.

we're ideal...

Obviously, we're bound to say this, we're very experienced in time-critical events, we're creative and we're totally up for it! Again, all of people who are throwing their hat into the ring for this project will also be saying this, so we might as well say the same.

inspired...

Because we're a highly creative team with a great track record, we're inspired and influenced by all sorts of other creative work. We're straight-talking, hard working, enthusiastic and good fun.

experience...

We know from experience that you need these, when information is late to arrive, last minute opportunities arise, or there's something that has to be acted on immediately, to maximise an opportunity. We're totally familiar with last-minute changes, tight deadlines and sometimes even total event changes, due to cancellations. Nothing really phases us any more.

and of course, we always deliver!
